

ACM **Advanced Crop Management**

About Advanced Crop Management

Advanced Crop Management is an agricultural services business. *ACM* personnel specialize in GPS soil sampling for Ag retailers and cooperatives in Iowa and Minnesota. *ACM* write nutrient management plans for livestock companies and producers in Iowa. In addition, *ACM* is a sale and service dealer for Ag Leader products. *ACM* has a Syngenta Seed Dealership in northern Iowa.

Student Opportunities

Advanced Crop Management offers spring and fall internships or part-time employment to qualified students. *ACM's* internships allow students to soil sample, install precision Ag products, write nutrient management plans and assist in seed sales and service.
