

Opportunities for Summer Internships

Junior Operations Assistant

A junior operations assistant internship at Five Star Co-op positions a student to learn about, and assist in, all aspects of the agronomy department during busy spring and summer seasons.

Duties include, but are not limited to: *tender truck operation, chemical plant operation, fertilizer plant operation, delivery of CPP and fertilizer products, as well as daily general duties at our facilities.*

The opportunity to learn to operate heavy equipment and sprayers is an added benefit of this position. A Class "A" CDL, or the ability to obtain one, is a requisite for this position.

Junior Crop Scout

A junior crop scout internship with Five Star Co-op is a great learning opportunity for students to gain first-hand experience in the applied world of agronomy. Crop scouts will be paired with a senior agronomist in our company acting as a mentor for the spring and summer seasons.

Duties include, but are not limited to: *soil sampling, crop stand evaluation, tissue sampling, and distribution of seed, fertilizer, and CPP products to growers, grower customer relations, weed identification, insect identification, disease identification, warehouse management, seed treatment, test plot maintenance, variety sign placement, and other various tasks as performed by our agronomy team.*

In this position you will learn agronomy and the cooperative system from the ground up. A considerable amount of time is dedicated to educational opportunities with various industry professionals in the agronomy field.
